Halloween-Themed Family Science Night Uses Spooky Experiments to Teach Students and Parents to Work Together

CORPUS CHRISTI, Texas – Students in pre-K through fifth grade and their parents will learn how to work together and create science at home during a "Family Science Night" Thursday, Oct. 30, from 7-7:30 p.m. at the Educational Center for Mathematics and Science (ECMS).

The ECMS is located next to the Early Childhood Development Center on the Texas A&M University-Corpus Christi campus.

Mary Beth Tierce, visiting assistant professor in the College of Education, and pre-service teachers will set up learning stations featuring spooky polymers, screaming balloons and dry ice bubbles.
