Texas A&M Corpus Christi Unveils New Mobile GO Center
Internet-Equipped Computer Lab Part of ‘Closing the Gaps by 2015’ Initiative

CORPUS CHRISTI, Texas – The Title V Department at Texas A&M University-Corpus Christi
will unveil its new Mobile GO Center on Wednesday, April 21, during a campus ceremony at the
Science and Technology Plaza.

The Mobile GO Center, which is funded by a $100,000 grant from the Texas Pioneer
Foundation, is one of 20 currently operating throughout the state as part of the Texas Higher
Education Coordinating Board’s “Closing the Gaps by 2015” initiative. The 42-foot trailer,
pulled by a 2010 Chevy Crew Cab truck, is equipped with 16 Dell laptops with Internet access
and a printer.

The Mobile GO Center will travel to rural Coastal Bend schools and community events to
promote college awareness and readiness among students, parents and the community. It will
also provide help in completing college applications and financial aid forms, college searches,
career searches/inventories, and student/parental financial literacy sessions.
