Dr. Elaine Young Receives TCTM 2010 Leadership Award

CORPUS CHRISTI, Texas – Dr. Elaine Young, an associate professor of mathematics at Texas A&M University-Corpus Christi, has received the 2010 Leadership Award from the Texas Council of Teachers of Mathematics (TCTM). Young was presented with the award on July 16 at the Conference for the Advancement of Mathematics Teaching in San Antonio, Texas.

Each year, the TCTM Leadership Award is presented to an outstanding leader in mathematics education who supports teachers at the local and state level. Young was chosen for this year’s award in recognition of her hard work in the Corpus Christi area, including her role as a teacher of teachers at Texas A&M-Corpus Christi. She is also a founding leader of the Coastal Council of Teachers of Mathematics and has served as the advisor for the student affiliate CTM for the past five years.

Young was also cited for work as co-chair of the “ME by the Sea” conference, an annual event sponsored by the University’s Department of Mathematics and Statistics and the Coastal Council of Teachers of Mathematics (CCTM). The conference emphasizes curriculum alignment and mathematics engagement for students from pre-kindergarten through college. “ME by the Sea” is one of the largest mathematics education professional development conferences for teachers of all levels.
