The A&M System is one of the largest systems of higher education in the nation, with a budget of $3.2 billion. Through a statewide network of 11 universities, seven state agencies and a comprehensive health science center, the A&M System educates nearly 115,000 students and makes more than 22 million additional educational contacts through service and outreach programs each year. Externally funded research expenditures exceed $730 million and help drive the state's economy.
