Texas A&M-Corpus Christi Senior Amanda Rodriguez Awarded American Mathematical Society’s Trjitzinsky Memorial Scholarship

CORPUS CHRISTI, Texas – Amanda Rodriguez, a senior mathematics major at Texas A&M University-Corpus Christi, was one of seven students across the nation awarded a $3,000 Trjitzinsky Memorial Scholarship from the American Mathematical Society (AMS).

Rodriguez, a first-generation college student, was presented with the check on Oct. 3 from Texas A&M-Corpus Christi’s Department of Mathematics and Statistics. She was selected by the department faculty to receive the funds to assist in her pursuit of a career in mathematics.

Each year, the AMS awards scholarships to seven undergraduate students through the Waldemar J. Trjitzinsky Memorial Fund, which assists underprivileged students who choose to study mathematics. For the 2011 awards, the AMS chose seven geographically distributed schools to receive one-time awards of $3,000 each.
