Island Day is designed so that you can test the waters at the Island University! You will have opportunities to meet our faculty and staff who are committed to every student’s success, learn about our academic programs, tour our state-of-the-art facilities, and meet students who were once in your shoes.

At A&M-Corpus Christi, no ocean is too deep to explore and the sky is the limit. Our scientists explore the Gulf of Mexico and work with the FAA and NASA to bring un-manned aerial vehicles to America's skies. Our university beach is a living laboratory and our students perform on the finest stage in the Coastal Bend. We are excited to share why approximately 11,000 students from 49 states and 59 countries have made the Island their home away from home.

Here are some recommendations to make the most out of your campus visit:

- **Take some time to review today’s schedule** and pick sessions that you would like to attend. Build your own schedule on page 6. Sessions include academic showcases, admissions and financial aid presentations, Islander Housing tours, and more!
- **Meet an Island Ambassador.** Island Ambassadors are TAMU-CC's volunteer tour guides and host on-campus events for prospective students. They are eager to share why they love being Islanders and can help with directions.
- **Take care of business.** University staff members are on standby to answer any questions and help you become an Islander!

On behalf of the Islander family, thank you for visiting Texas A&M University-Corpus Christi. We hope that your visit makes choosing a university a little easier.

Shakas Up and Go Islanders!

**Bailey Patterson**
Assistant Director of Undergraduate Recruitment
Texas A&M University-Corpus Christi
TODAY'S AGENDA

Check-in  
Performing Arts Center  
8:00 - 9:00 a.m.
Review today's schedule and use page 6 to build your agenda.

Mini Pep-Rally and Welcome Session  
Performing Arts Center  
9:00 - 9:30 a.m.
Members from the Islander Pep Band and the Spirit Team will kick-off the day with a short performance to welcome you to the Island! Learn about what to expect and how to make the most of your campus visit. Island Ambassadors will direct you to the Academic Showcases from this session.

Academic Showcase Sessions  
9:45 - 10:30 a.m. & 10:40 - 11:25 a.m.
>>See pages 3 and 4 for sessions, times, and locations
Discover some of the university's top rated programs! Choose from a variety of sessions to immerse yourself in the true Islander experience! Be sure to review session times and locations.

Lunch and Island Fair Rotation  
>>Match your name tag color with the schedule below to determine your schedule.
Get a taste of Islander Dining and browse information tables to meet members from various campus departments, organizations, and academic programs!
Do you have dietary restrictions? Let a dining staff member know.

Breakout Sessions  
1:10 - 3:40 p.m.
>>See page 5 for sessions, times, and locations
Interested in learning about admissions, financial aid, student life or Islander Housing? Need assistance applying for admission or financial aid? Want to tour campus? There is a session for you!
First-Year Learning Communities Program and University Seminar
O'Connor Building, room 115 - Dr. Rita Sperry
9:45 - 10:30 a.m. & 10:40 - 11:25 a.m.
Learn about the award-winning and innovative First-Year Learning Communities Program (FYLCP) and University Seminar, two interconnected programs designed to help first-year students transition to the university and develop the habits of mind necessary to succeed! Opportunities for meaningful connections with students, faculty, and staff are incorporated into the FYLCP and in the University Seminar course to help new students build a community during our students’ first year on the island.

The Honors Program
O'Connor Building, room 116 - Ms. Michelle Evans and Honors Program Students
9:45 - 10:30 a.m. & 10:40 - 11:25 a.m.
The Honors Program provides highly motivated students with scholarships and the opportunity to engage in individualized research experiences with faculty mentors. All students will be offered a space in the Honors Residence Hall and will have the opportunity to study in a supportive environment in the Honors Lounge. Students will graduate knowing that they have the skills and experience necessary to succeed in the workplace and in graduate or professional schools. Students accepted to the Program in Fall 2023 will receive a 4-year, renewable tuition scholarship of $1,000/year. In addition, students choosing to live in the Honors Living Learning Community will be eligible for a housing scholarship of $1,000.

Taking on the TSI Exam
Center for Instruction, room 128 - Dr. Charlene Tintera
9:45 - 10:30 a.m.
Dr. Tintera is an award-winning math professor and will address some of the struggles first-year students encounter in mathematics. She will talk about the math tutoring services available on campus and address the Texas Success Initiative Assessment (TSIA) in math and the importance of note-taking skills that will help students be successful during their first-year transition from high school to college. The Director of the Office of Academic Testing, Judith Perales, will be on hand to explain the process of signing up to take the TSIA with TAMU-CC staff.

Welcome to the College of Business!
O'Connor Building, room 145 - College of Business Faculty
9:45 - 10:30 a.m. & 10:40 - 11:25 a.m.
The College of Business offers students the best quality education in seven major areas. The college is accredited by AACSB International in both Accounting and Business, a distinction held by only one percent of business schools worldwide. Stop by to learn more about our programs, internship opportunities, international experiences, and why TAMU-CC is among the premier business schools in Texas!

Engineering at TAMU-CC
Dr. Robert Furgason Engineering Building, room 108 - Dr. Rajeev Kumar
9:45 - 10:30 a.m. & 10:40 - 11:25 a.m.
This presentation will give an overview of the engineering programs available at TAMU-CC including mechanical engineering, electrical engineering, civil engineering, industrial engineering, and mechanical engineering technology.

Engineering Research Lab Tours (Groups are limited to 20 participants each)
Dr. Robert Furgason Engineering Building, Lobby - Dr. Hongwei Hsiao and Dr. Nancy Soliman
9:45 - 10:30 a.m. & 10:40 - 11:25 a.m.
Participants will tour two of our state-of-the-art research labs including the Smart Technology Advancement Research (STAR) lab and the Infrastructure and Energy Materials in Extreme Environments lab. The STAR lab will highlight human-technology interface research, 3-dimensional digital human modeling, personal protective equipment (PPE) 3-dimensional dynamic fitting and performance assessment, and big data in protective gear sizing and design for a diverse workforce. The Infrastructure and Energy Materials in Extreme Environments lab is a multi-scale, multi-disciplinary research lab on materials processing-structure-property relations, emphasizing construction materials for energy. The lab is a platform for four areas of hands-on teaching and research for students in material science for infrastructure and energy sectors including innovative materials synthesis equipment, microstructure characterization, macro-micro- and nano-scale mechanical testing, and durability investigations.

Computer Science and Geographical Information Science at TAMU-CC
Dr. Robert Furgason Engineering Building, room 101 - Dr. Hongzhi Song
10:40 a.m. - 11:25 a.m.
This presentation will include the Biomechanics Lab, Motor Development Lab, Sport Physiology Lab, and Athletic Training Center. Participants will tour the Biomechanics Lab, Motor Development Lab, Sport Physiology Lab, and Athletic Training Center.

Presentation topics include opportunities for leadership training, cadet life, hands-on/adventure training, and financial incentives.

Welcome to Nursing and Health Sciences
Center for Instruction, room 138 - Prof. Leigh Shaver, Dr. Danielle Durant, and Dr. Qianqian Liu
9:45 - 10:30 a.m. & 10:40 - 11:25 a.m.
This presentation consists of an overview of the programs offered in the College of Nursing and Health Sciences: Clinical Laboratory Science, Health Care Administration, and Nursing.

CONHS Simulation and Clinical Learning Center Tour
Island Hall, departing from room 160 - Ms. Denise Byrne and Nursing and Health Care Administration Students
9:45 - 10:30 a.m. & 10:40 - 11:25 a.m.
This presentation includes the CONHS Simulation and Clinical Learning Center. The Center includes Islander Regional Hospital, a simulated hospital unit, and several specialty labs including obstetrics and pediatrics.
COLLEGE OF LIBERAL ARTS

Psychology: Attention, Perception, and Memory
Bay Hall, room 104 - Dr. Gina Hawkins
Can you tell me what a penny looks like? Bet you can’t! Come and find out why through the eyes of psychology.

Political Science - The Master Science
Bay Hall, room 128 - Dr. Carlos Huerta
Political science is an ideal major for politically interested and concerned students. Students learn to comprehend and engage politically to succeed in a wide variety of careers and professions in the public, nonprofit, and business sectors. Our curriculum addresses important topics in American & international politics. In addition, the political science major prepares students to become actively engaged citizens.

Nature and Value of Philosophy
Bay Hall, room 126 - Dr. Glenn Tiller
Aristotle said that philosophy begins with wonder. But what is it we are wondering about? This presentation explains what philosophy is and its value. It looks at the origins & history of philosophy, the perennial questions it explores, its methods, & why it's valuable both to the individual who studies it & society.

Criminal Justice: What Is Crime?
Bay Hall, room 103 - Dr. Wendi Pollock
This presentation will include a discussion about the wide and changing range of behaviors that are labeled “crimes”, and how one system struggles to handle them all. From there we will cover what students will learn about crime and the criminal justice system here at TAMUCC and see some videos of things happening around campus with criminal justice students.

Keeping Music in Your Life in College
Center for the Arts, room 228 - Dr. Susan de Ghizé (limited to 24 participants)
Do you sing or play an instrument? Are you interested in music industry? Have you ever wanted to learn how to read music or who Beethoven was? The music department offers several music major tracks, a music minor, as well as classes for non-majors. Come to this session to learn about how to keep music in your life in college.

The TAMU-CC Dance Company Presents Making Waves
Center for the Arts, Lobby - Sarah Gonzalez
Get a sneak peek of an upcoming performance at the Making Waves, Island Demo featuring the TAMU-CC Dance Company, students from the Dance Program, and The Stage.

Theatre Tours
Center for the Arts, Lobby - Dr. Thomas Oldman
This session provides a brief look at our theatre facilities, a discussion of our season of shows, information about our classes, and a conversation about the benefits of studying theatre & dance in a liberal arts curriculum. Questions are more than welcome, and we invite all who are curious.

Color and Light (and Candy): Lighting the Stage
Center for the Arts, Meet In the Lobby - Session will be in the Wilson Theatre - Alex Mason
Have you ever wondered why there's so much blue light in theatre, dance and film? How about why a green car looks brown under a red traffic light or why some car headlights seem so much brighter than others? This is your opportunity to experiment hands-on with these and other concepts in theatrical lighting, and to do so with candy! What's not to like?

Graphic Design at TAMU-CC
Bay Hall, room 234 - Nancy Miller
Design is a creative and inspiring process that combines art and technology to communicate ideas and information visually from client to audience. Graphic Design majors will address issues stressing social and cultural awareness through their studio work, integration of new technology, and sustainable professional practices while being prepared to enter into the evolving creative industry.

COLLEGE OF SCIENCE

Tidal Hall, Life Science Research Building Tours
Departing from the Tidal Hall Lobby - Mr. Kenneth Brown
Tidal Hall is TAMU-CC's newest building on campus that supports the university's fastest-growing programs and recent R2 Doctoral University High Research Activity classification by the Carnegie Commission on Higher Education. See our state-of-the-art lab facilities in the $60,000,000 three-story building designed to sustain dynamic research from the undergraduate to doctoral level.

Exploration of the Forensic Sciences Program: Courses and Careers
Dr. Robert Furgason Engineering Building, room 107 - Dr. Sharon Derrick
The Forensic Sciences Program is multi-faceted and provides a strong foundation for a career in the various fields of the forensic sciences. Dr. Derrick, a practicing forensic anthropologist, explores the diverse careers available. Emphasis will be placed on forensic applications of the life sciences, including pathology, anthropology, and dentistry. Questions & discussions regarding course offerings and preparation for a forensic science career are welcomed.

"Weather" or Not Be a Meteorologist? - Atmospheric Science
Dr. Robert Furgason Engineering Building, room 106 - Dr. Pat Fitzpatrick
An overview of the atmospheric science program. A meteorologist uses scientific principles to explain, understand, observe, or forecast atmospheric phenomena on different timescales, and examines how the atmosphere affects life on earth. TAMU-CC offers a Bachelor of Science degree in atmospheric science. We present an overview of the field, employment prospects, degree information, collaborative/internship opportunities, and student activities.

DNA: The Beginnings - Biomedical Sciences
Center for Instruction, room 128 - Dr. Gregory Buck
This presentation is a mini-lecture, actually condensed from what is actually given in sophomore-level Microbiology (BIOL 2421). The topic covers the initial description of DNA and the deduction of its structure to its known function, as described by Watson and Crick. Suitable for pre-med, pre-dental, pre-vet, pre-pharmacy, and those students interested in biological science. The information presented will be related to Dr. Buck’s research in his lab with undergraduate students, and the opportunities possible for students attending TAMU-CC.

Dive in and Test the Waters with a (marine) Biology Student
Center for Instruction, room 113 - Ms. Iris Fuentes '22
Join Iris Fuentes, a current biology major with an emphasis in marine biology as she shares her experience as a student researcher, how she collaborates with faculty, and the many opportunities for our biology students.

Measuring Biodiversity and Ecosystem Change to Inform Conservation and Restoration
Center for Instruction, room 113 - Dr. Shawn McCracken
From Ecuador to Texas, how conservation technology is being used to remotely collect biodiversity data. Applying artificial intelligence and machine learning techniques to automate species detection in these data. And, how we use these results to guide conservation and landscape restoration efforts.

Environment Science at TAMU-CC
Dr. Robert Furgason Engineering Building, room 106 - Dr. Jennifer Smith-Engle
Environmental science is a highly interdisciplinary field embracing core sciences, regulations, and emerging technologies. Potential careers include consulting, positions in industry, local, state or federal agencies, non-profits, education, law, and more. Field trips, internships, and undergraduate research provide high-impact learning opportunities, and customized degree plans fit students’ individual interests and goals.
