SECTION IV. ACADEMIC PROGRESSION

Program Degree Requirements

*The number of hours required for the **MBA** degree ranges from 30 to 48 and varies by concentration area, delivery format, and necessity for foundational courses for students with nonbusiness degrees. The program may require up to 48 hours of graduate work for nonbusiness majors and may be completed in as few as 30 hours for students with an undergraduate degree in business. The on-campus and online **MBA** formats both require 30 hours for students with an undergraduate degree in business. The selection of a concentration would increase the number of hours in the program of study to 36 for a student with an undergraduate degree in business.*

Degree Plan

Students who have had no undergraduate work in business may be required to complete 12 credits of core courses designed to provide preparation comparable to the professional core in the undergraduate curriculum of the College of Business.
