CACREP Vital Statistics Report
2023-2024 Academic Year

Accredited programs are required to complete the CACREP Vital Statistics Survey on an annual basis. The information provided below is representative of students enrolled in an M.S. or Ph.D. program during the 2023-2024 academic year. Table 1 provides the current enrollment for each of the programs offered through the Department of Counseling and Educational Psychology.

Table 2 provides information on the overall health and vitality of the programs offered through the Department of Counseling and Educational Psychology. This information is helpful to prospective students considering a graduate degree in counseling. The number of graduates represents students participating in the May, August, and December commencement ceremonies held during the reporting year. The credentialing exam pass rate refers to students' performance on the National Counselor Examination (NCE) or the TExES School Counselor Exam. Completion rates are based on the percentages of students completing the 60-hour M.S. degree program in four years and the 69-hour Ph.D. program in five years. Job placement rates are determined by surveying our graduates and reviewing the gainful employment data collected by the Texas Higher Education Coordinating Board.

Program (2023-2024 students)	Number of Graduates	Credentialing Exam Pass Rate	Completion Rate	Job Placement Rate
