A BIOLOGY COURSE IS ONLY REQUIRED if no other courses were taken with a Biology prefix (i.e., Anatomy & Physiology in a Biology Department would satisfy this Requirement, so no extra course is needed in Biology).

* When anatomy and physiology are not combined, students need to demonstrate completion of an anatomy course and a separate physiology course to meet this requirement.

If you believe a course you have taken fulfills the required prerequisite requirement, but the course title does not match, please contact the Program Administration for review.
