# COASTAL BEND MIDSTREAM PROGRAM

The Coastal Bend Midstream Program (CBMP) at Texas A&M University-Corpus Christi (TAMU-CC) held its second annual meeting of CBMP's Industry Advisory Board (IAB). Thomas Kalb, Director of CBMP, reviewed the program's mission and achievements over the past year and led the IAB in a discussion of program activities and objectives for 2026. This year's meeting was generously hosted by Glen Jasek, Senior Vice President, Transmission, Power & Gulf at The Williams Companies in Houston.

D van Oostendorp (CorrPro), A Chandra (Baker&O'Brien), M Smolik (Howard)  
(Not Pictured: T Patterson (Buckeye), L Wise (Kinetik), and J Tikkanen (Retired))**

“We are truly honored to have such distinguished industry leaders support CBMP,” Kalb said. “Their expertise, time, and commitment are essential to our mission of bridging the university, industry, and society through faculty and student education, research, and knowledge transfer.”

CBMP is a midstream-focused educational and research program housed in the College of Engineering and Computer Science at TAMU-CC. Learn about CBMP at [cbmp.tamucc.edu/](http://cbmp.tamucc.edu/).
