The goal of the Texas A&M University-Corpus Christi Unmanned Aircraft Systems (UAS) Summer Program is to offer high school students hands-on experience with UAS equipment and software. Students who complete the Unmanned Aircraft Systems Summer Program will receive college credit for the Introduction to Engineering course (ENGR 1211) if the student later enrolls at Texas A&M University – Corpus Christi and majors in engineering. A grade will be assigned based on the activities accomplished in the Program.

### 2023 Unmanned Aircraft Systems Summer Program

Instruction, materials, and daily lunch included.

- **Time:** 8:00 AM - 5:00 PM
- **Cost:** $150
