Section 08.03.03
ACCOUNT ATTRIBUTES

Account Attributes are descriptive data associated with a record. Each attribute screen provides basic descriptive information about an account that may include an account title, the name of the person responsible for the account, its purpose, and the department within the organization using the account. Attribute records also provide additional general information about an account. Screen 2 gives attribute information on General Ledger (GL) accounts. Screen 6 gives attribute information on Subsidiary Ledger (SL) accounts. Screen 50 gives attribute information on Support accounts (SA). You can learn more about what each of these types of accounts are in Section 02.01 of this handbook.
