Failure to submit a comprehensive, acceptable HUB Subcontracting Plan that identifies ALL subcontracting opportunities will be considered a material failure to comply with the requirements of the RFQ and will result in rejection of the submittal of any such future project(s).**

For information regarding TAMU-CC HUB Program and HUB Subcontracting requirements, please contact Mr. Ruben Gonzalez, HUB Coordinator, Procurement & Disbursements, [ruben.gonzalez@tamucc.edu](mailto:ruben.gonzalez@tamucc.edu), (361) 825-5822. **We encourage all respondents to submit a draft HUB Plan to the email address listed herein for our review at least two days prior to the due date.**

### **1.12 Certain Proposals and Contracts Prohibited**

Under Section 2155.004, Texas Government Code, a state agency may not accept a proposal or award a contract that includes proposed financial participation by a person who received compensation from the agency to participate in preparing the specifications or request for proposals on which the proposal or contract is based. If a state agency determines that an individual or business entity holding a state contract was ineligible to have the contract accepted or awarded as described above, the state agency may immediately terminate the contract without further obligation to the vendor. This section does not create a cause of action to contest a proposal or award of a state contract.

### **1.13 Required Notices of Workers' Compensation Insurance Coverage**

Section 406.096, Texas Labor Code, and the rules of the Texas Workers' Compensation Commission, require workers' compensation insurance coverage for all persons providing services on a building or construction project for a governmental entity.

#### **1.14 State Registration of Engineering Firms**

Section 1001.405, Texas Occupations Code, provides that a business entity may not engage in the practice of engineering in this state unless the business entity is registered with the Texas Board of Professional Engineers. A business is defined as a sole proprietorship, firm, partnership, corporation or joint stock association.

#### **1.15 State Registration of Architectural Firms**

Section 1051, Texas Occupations Code, provides that a business entity may not engage in the practice of architecture in this state unless the business entity is registered with the Texas Board of Architectural Examiners. A business is defined as a sole proprietorship, firm, partnership, corporation or joint stock association.

## SECTION 2

### EXECUTIVE SUMMARY

#### 2.1 Project Description, Scope and Budget

The intention of this RFQ is to qualify firms to be included in a pool for the services defined in this RFQ. In order to provide timely and cost-effective design and other specialized services for the TAMUCC facilities, it is the intent of the TAMUCC to establish a master services agreement (“Agreement”) with one or more Respondents to meet the needs of TAMUCC Administrative Operations. Any resultant Agreement will be between the selected Respondents and the TAMUCC. Execution of an Agreement as a result of this RFQ does not guarantee utilization of any awarded Respondent. Contracts for assignment work will be executed using individual “Project Assignments”. There is no guarantee that any SPECIFIC MINIMUM DOLLAR amount of fees will be awarded.

The initial term of the Master Agreements shall be one year. Upon mutual consent, the Master Agreements may be extended for up to five (5) additional one (1) year renewals under the same general terms and conditions with any added modifications due to codes, software versions, firms revised hourly rate schedule as may be approved, new University policies, etc.

The award of individual project assignments shall be based on the expertise of the Professional Service Provider (“PSP”), their successful performance on prior assignments, the number of projects requiring design (after evaluation of University staff availability), and the availability of funding for projects.

Professional services fees for individual Project Assignments will be negotiated based on the governing rules of the Texas A&M System Board of Regents. These fees will vary depending upon the types of services required and the project types.

The successful Respondent(s) shall provide hourly rates for additional services or hourly not to exceed tasks as a part of executing the awarded master agreement. These rates shall be based on performance tasks (principal, senior engineer, drafting technician, clerical, etc.; not individual names) and be submitted during the contracting process and negotiations. Initial hourly rates shall be for the base year of the Master Agreement. These rates may be negotiated for each of the subsequent renewal periods, as applicable. Successful Respondent(s) must show the calculations for determination of the hourly rates, detailing the base rate as well as the multiplier including labor overhead, fringe benefits, general and administrative (indirect) expenses, profit and escalation as applicable.

**NOTE: NO hourly rates schedule shall be submitted in the response to this RFQ.**

The intent of this RFQ is to contract with Respondents having in-house capability to provide the necessary professional services. Subconsultants for other disciplines may be included on individual project assignments as the sub-consultant specialty is warranted; such subconsultants are NOT a part of this RFQ. The scope of work will vary from project assignment to project assignment in complexity and the scope of services to be provided by the PSP. Services to be provided may include, but are not limited to:

Program evaluation, project planning, facilities space management, feasibility analysis, testing, studies/reports, conceptual design, cost estimates, schematic design, design development, bidding construction documents, bidding and contractor selection services, basic construction administration, as-constructed drawings and more extensive construction phase quality control and monitoring.

All awarded Respondents shall comply with all applicable codes (Life Safety, NFPA 101, etc.), other regulations, Texas A&M University System and Texas A&M University Corpus Christi "Facility Design Guidelines" as may be additionally stated in the master agreement, subsequent renewals and specific Project Assignments.

Awarded Respondents will be considered for all ranges of projects including both smaller (\$50K to \$1M) and larger projects \$1M to \$10M) unless otherwise stated in Qualifications.

Examples provided below describe the type of project commonly requiring professional services. Required professional services include, but are not limited to, architecture, MEP, structural, civil and environmental for building renovations and new facilities as well as site, landscape and marine related services.

## **ARCHITECTURAL, ENGINEERING AND ENVIRONMENTAL PROJECTS:**

**Laboratory, Research and Other Related Facilities:** technical expertise and experience with wet and dry laboratory design, use of NFPA 45 Standard on Fire Protection for Laboratories, fume hoods and laboratory ventilation, clean room and HEPA filtration expertise, and marine facilities.

**Mechanical, Electrical and Plumbing:** projects may include, but are not limited to, design (new and renovation/replacement) of MEP systems and components, evaluations of existing conditions assessments, code review and compliance.

**Structural and Civil Projects:** projects may include, but are not limited to, concrete spalling repairs, design (new and repairs) of structures including roofs and piers, TDI windstorm inspections and certifications, evaluations of existing conditions, assessments, code review and compliance.

## **HUB SUBCONTRACTING PLAN**

### **FOR**

### **PROFESSIONAL SERVICES**

- I. The purpose of the HUB Program is to promote full and equal business opportunities for all businesses in State contracting.

In accordance with 34 TAC §20.14(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only contracts that have been in place for five years or less shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.

Texas A&M University-Corpus Christi (TAMUCC) has determined that the agency's goals differ from the State's goals. Therefore, respondents are required to use the following:

1. 19.78% for all building construction, including general contractors and operative builders contracts;
2. 13.31% for all special trade construction contracts;
3. 17.60% for professional services contracts;
4. 12.32% for all other services contracts; and
5. 25.13% for commodities contracts.

An accepted HSP Subcontracting Plan will become a part of any contract with the Respondent resulting from this solicitation and then can only be modified by contract change order.

### III. HSP CHANGES

If at any time during the term of the contract, it becomes necessary to make a change to the approved HSP, such proposed change must be received for review and approval by the TAMUCC HUB Program Office before the change will be effective under the contract. The contractor must comply with provisions of TAC §20.14 relating to development and evaluation of HSP, in order to substitute or subdivide the work and/or substitute or add subcontractors prior to any alteration of the HSP. TAMUCC shall document changes to the HSP by contract change order. The reasons for proposed change(s) shall be requested on a Form C-27b Consultant/Subcontractor Substitution Form and recorded in the procurement file. In the event that a change is necessary, the requested changes shall not reduce the level of HUB participation that was a part of the proposal at the time of construction contract award unless approved by the TAMUCC HUB Program Office.

The contractor will be required to submit a revised HSP for additional subcontracting opportunities that were not identified in the original HSP and created when the original scope of work expands through a change order, contract amendment or a contract renewal.

TAMUCC requires a respondent to whom a contract has been awarded, to report to TAMUCC the identity and the amount paid to its subcontractors, HUBs and non-HUBs. If the contractor fails to fulfill the HSP specified in the contract, TAMUCC shall notify the contractor of any deficiencies. TAMUCC shall require the contractor to submit documentation and explain why the failure to fulfill the HUB Subcontracting Plan should not be attributed to a lack of good faith effort by the contractor.

If a determination is made that the contractor failed to implement the HSP in good faith, TAMUCC, in addition to any other remedies, may report nonperformance to the Comptroller of Public Accounts in accordance with 34 TAC, Chapter §20.105 (relating Debarment).

During the term of the contract, TAMUCC shall determine whether the value of the subcontracts to HUBs meets or exceeds the HSP provisions specified in the contract.

### IV. REPORTING REQUIREMENTS

Each contractor that enters into a contract shall report to Texas A&M University-Corpus Christi all subcontracting/supplier payments. The report will include the volume of work

performed under the contract, the portion of the work that was performed with its own employees/resources, HUB and Non-HUB subcontractors and suppliers (See HSP Prime Contractor Progress Assessment Report Form (PAR) located at the following link under HUB Subcontracting Plan (HSP) Forms:

<https://comptroller.texas.gov/purchasing/vendor/hub/forms.php>

Texas A&M University-Corpus Christi may request payment documentation in accordance with the Comptroller of Public Accounts HUB Rules that confirms the performance of the contractor. During the course of the contract, TAMUCC shall discuss the performance of the contractor and document the contractor performance in the contract file.

**Note:** When the prime contractor/vendor is a HUB, it must perform at least 25% of the total value of the contract with its own or leased employees, as defined by the Internal Revenue Service, in order for the Owner to receive 100% HUB credit for the entire contract.

If a HUB prime contractor's HSP identifies that it is planning to perform less than 25% of the total value of contract with its own or leased employees, the HUB contractor must report to the Owner the value of the contract that was actually performed by the HUB prime contractor and the amount to be performed by its HUB subcontractors.

The HUB Office shall audit the contractor's compliance with the HSP. If the contractor is found deficient, TAMUCC shall give the contractor an opportunity to submit documentation and explain to TAMUCC why the failure to fulfill the HSP should not be attributed to a lack of good faith effort by the contractor.
