### NIGP Commodity Book Numeric Index

The National Institute of Governmental Purchasing (NIGP) Commodity Book has been prepared for the use of bidders, vendors, and state agency personnel. The State of Texas has marked certain codes for information technology and related commodities and services as Automated Information System (AIS).

microscope Clear Download Table 

Class Code ↕	Description
<a href="#">285 - 51</a>	Lamps, Scientific Instrument: Microscope, Oscilloscope, etc.
<a href="#">490 - 29</a>	Electron Microscopy Equipment, Laboratory: Electron Microscopes, Vacuum Sputtering Systems, etc.
<a href="#">490 - 57</a>	Microscope Accessories: Adapters, Condensers, Filters, Illuminators, Lenses, etc., Laboratory
<a href="#">490 - 58</a>	Microscopes, All Types, (See 490-29 For Electron and See 465 For Operating Room)

  - b. On Multiple Vendor Search type in "Class #" in 1<sup>st</sup> blank and "Item #" on 2<sup>nd</sup> blank from previous search and click on search for your results

Centralized Master Bidders List - VetHUB Directory Search

The CMBL is a master database used by State of Texas purchasing entities to develop a mailing list for vendors to receive bids based on the products or services they can provide to the State of Texas. Manufacturers, suppliers, and other vendors wishing to furnish materials, equipment, supplies, and services to the state should register for the CMBL to receive bidding opportunities. The information in this database is published in compliance with Texas Government Code §2155.263 and §2161.064, and Texas Administrative Code §20.107 and §20.293.

The CMBL/VetHUB Directory Search is automatically defaulted to "CMBL Only" to perform a search for vendors, including Texas certified VetHUBs who have elected to register on the CMBL. Purchasing entities use NIGP Class and Item Codes within the "Multiple Vendor Search" feature to identify vendors who can provide the products or services they want to purchase, and to develop mailing lists of vendors to receive bids.

For detailed explanations of the various search and data output features (i.e., Search For, Single Vendor Search, Multiple Vendor Search, Business Category / Vendor Location Search, Select Fields For Output, Output Options) that may be used to create lists of potential vendors as well as retrieve detailed information on a specific vendor, click [CMBL Directory Search Tips](#).
