120 CREDITS | FINISHED!

# CAREER MAP

## SOCIOLOGY

### Bachelor of Arts

In keeping with the University's mission, the discipline of psychology seeks to discover, communicate, and apply knowledge about human behavior in a complex and changing world.

The specific mission of the undergraduate program is three-fold: to provide a basic education within the field of psychology as a foundation for graduate work in a professional field of psychology, such as clinical or counseling psychology, cognitive psychology, social psychology, or developmental psychology; to provide disciplinary knowledge through a broadly-based curriculum which can be applied to related careers such as human services, business, communications, and research; and to contribute to the education of students majoring in other areas of study.
