CAREER MAP

HEALTH SCIENCES

Bachelor of Science

The Bachelor of Science in Health Sciences (BSHS) or in Healthcare Admin. (BSHA) prepares graduates for a variety of career opportunities in the health care field by providing the management skills necessary for success. By designing a degree plan using electives in such areas as computer science, geographic information systems, mathematics, business administration, accounting, international business, and information systems, the student may pursue specific areas of interest. Students can also use electives to design a degree plan that will satisfy entrance requirements for admission to professional schools such as medicine, dentistry, physical therapy, public health, law, and business.
