This is not an official degree plan. It is a guideline for planning your courses. To access a copy of this academic map please visit tamucc.edu/academics/planning/academic-advising/
The Business Economics program integrates economics with courses in marketing, management, accounting, finance and quantitative analysis. Economics as a discipline is positioned at the intersection of social science and business, so has a great relevance for an extremely wide range of business and public policy issues, thereby providing our successful graduates with great career prospects in both the private and public sectors. By combining the study of economics (the scientific study of how society manages its scarce resources) and business, our degree provides a strong theoretical and professional basis for a successful and rewarding career. Business economics majors gain the skills to gather and analyze data for solving problems affecting companies, governments and non-profit organizations. The program includes basic courses in all business disciplines as well as in economics, and develops the skills that graduates need to work in a wide range of industries. The skillset includes understanding of the incentives that affect human behavior, the operation of markets and the strategic decisions of businesses and governments, both locally and internationally.

### INTERNSHIP INFORMATION

- Second semester junior standing or above and with a grade point average of 2.75 in upper division work.
- 9 hours upper division work complete in major, 12 hours of upper division general course work complete can apply to participate in an internship.
- Students receive three hours of credit for the experience (elective) as well as a grade.
- The course grade will be assigned by the faculty sponsor who will consider the supervisor evaluation, the oral presentation, and the written report.
- There will be an end of semester evaluation by the supervisor. The work experience:
  - Must be in your major.
  - Must consist of a minimum of 120 hours per semester.
  - The salary is negotiated between the employer and student.
  - Students will normally perform some routine tasks but need to spend the majority of their time working on a challenging project or function that requires crucial thinking, imagination, originality, common sense, and emphasizes the development of professional skills.

### CAREER OPTIONS

- Economist
- Financial Manager
- Market Research Analyst
- Management Analyst
- Financial Advisor
- Actuary
- Logician
- Policy Analyst
