## GEOLOGY-GEOCHEMISTRY

### *Bachelor of Science*

Persons interested in geology should have a genuine interest in natural sciences, some inborn curiosity to figure “things” out, and, as in any technical profession, a good portion of perseverance and motivation. Many geologists like the outdoors, but a lot of geoscience is done in the lab, on the computer, on board of a ship, or using remotely operated tools such as satellites and the rovers on planet Mars. Because science is also about effective communication, it helps to have a certain talent for technical writing and public speaking. Tracks students can choose from include: General Geology, Geochemistry, Environmental Geology, Energy Resources.

## CAREER OPTIONS

• Geologist	• Petrologist
• Petroleum Geologist	• Oceanographer
• Hydrologist	• Geophysics
• Mineralogist	

## STUDENT ORGANIZATIONS

- Geology Club
- SACNAS Chapter at Texas A&M University - Corpus Christi

## SKILLS/ATTRIBUTES

- Critical Thinking/Problem Solving
- Teamwork/Collaboration
- Professionalism/Work Ethic
- Oral/Written Communication
- Leadership
- Digital Technology
- Career Management
- Global/Multicultural Fluency
- Analytical
- Interpersonal skills
- Physical Stamina
- Public Speaking
- Technical Writing
