Additional definitions are provided in the related statutes and policies cited below.

Procedure

1. GENERAL

Regular employees are eligible to apply for sick leave with pay, sick leave without pay, sick leave pool hours, sick leave pool donation hours, family leave pool, family and medical leave (FMLA), and parental leave subject to the restrictions and requirements of system policies and regulations. A regular employee is defined as an employee who is budgeted by name for 50 percent or more time for at least four and one-half months, excluding students employed in positions that require student status as a condition for employment.

2. CONFIDENTIALITY

All documents containing medical information are to be handled in the strictest of confidence and in compliance with the Texas A&M University System Records Retention Schedule. Managers must be sensitive to the desire of an employee to have medical information held confidential by the immediate manager. Any documents related to a

serious health condition should be provided by the employee to Human Resources. Handling of such documents by coworkers and other offices should be avoided. It is a manager's responsibility to keep administrative superiors informed about personnel absences and resulting departmental consequences and needs.

3. SICK LEAVE APPLICATION, DOCUMENTATION, AND APPROVAL

- 3.1. Sick leave with or without pay for an employee must be approved by their manager, subject to auditing by Human Resources for compliance with system policies and regulations and consistent interpretation and applications of those policies and regulations.
- 3.2. An employee who must be absent from duty because of illness or injury will notify their manager or have their manager notified as soon as possible. As soon as possible, the employee will submit a request for time off in Workday. These requirements apply for all sick leave absences, whether working remotely or on site, if the absence occurs during the employee's workday.
- 3.3. When an absence from work due to an employee's or family member's medical condition that exceeds three (3) continuous working days, the employee must provide a physician's statement on the fourth day that indicates the reason for the absence and the estimated date of recovery or some other documented statement of the facts concerning the illness that is acceptable to the manager.
- 3.4. Upon notification of a serious health condition, Human Resources will send the employee information about the Family Medical Leave Act (FMLA) and a request for the FMLA certification form.

4. FACULTY SICK LEAVE USAGE

- 4.1. A faculty member at an institution of higher education as defined by Section 61.003 Education Code, must submit a time off request for all sick leave if the absence occurs during the normal workday, even if no classes are missed. The application, documentation, and approval of this sick leave must comply with section 3 of this procedure.
- 4.2. For sick leave purposes, the faculty workday is divided into time periods and scheduled events. The two (2) time periods are morning (midnight to noon) and afternoon/evening (noon to midnight). Time periods include regularly scheduled teaching duties on Saturday and Sunday. Each time period is considered to be four (4) hours in length. Events include classes, office hours, meetings, and other administratively assigned activities.
- 4.3. If a faculty member misses all scheduled events or assigned activities in a calendar day, they must submit a time off request for eight (8) hours of sick leave. If a faculty member has scheduled events/activities for both time periods but misses all

the events/activities in just one of the periods, the faculty member must submit a time off request for four (4) hours of sick leave.

- 4.4. If a faculty member misses only a portion of the events scheduled for a particular period, the faculty member will be charged with a percentage of the time missed. For instance, if the faculty member misses office hours in the afternoon, but meets their evening class, they missed two (2) of the scheduled events for the time period and must submit a time off request for two (2) hours of sick leave.
- 4.5. If a full-time faculty member misses all scheduled events for the work week (Monday through Sunday), the faculty member must submit a time off request for 40 hours of sick leave even if the faculty member did not have 40 hours of scheduled events.
- 4.6. Deductions for eligible part-time faculty will be based on the proportion of their appointments.

5. USE OF AVAILABLE SICK LEAVE

- 5.1. Sick leave may be used when medical condition, injury, pregnancy, or confinement prevents the employee from reporting to work or when the employee is needed to care for a member of their immediate family member, as defined above, who is ill. Sick leave may be taken to care for minor children of the employee who are ill regardless of where they live.
- 5.2. An employee's use of sick leave for family members not residing in the employee's household is strictly limited to the time necessary to provide care and assistance to a spouse, non-minor child, or parent (but not parent-in-law) of the employee who needs such care and assistance as a direct result of a documented medical condition.
- 5.3. An employee who is the parent of a child who is a student attending a grade from pre-kindergarten through 12th grade may use up to eight (8) hours of sick leave each fiscal year to attend educational activities of their children.
