TAMUCC faculty and staff have the ability to connect to the Islander_Admin and Eduroam network. TAMUCC students can connect to only the Islander_Student network. Follow the below instructions to connect to the appropriate network.

- 1. Search for available wireless networks by clicking the WiFi icon on the taskbar.
- 2. Select the appropriate network for your role at the University.
- 3. When prompted, enter your IslandID and password.
- 4. If prompted, click Connect to accept the security certificates.
- 5. You should now be connected to the University wireless network.
