

Setup email on Apple iPhone or iPad

Clients using iOS 11.2 or later on iPhone and iPad may access their email on their mobile device by going to **outlook.tamucc.edu** in a web browser or by using the **Mail** app that comes included in iOS.

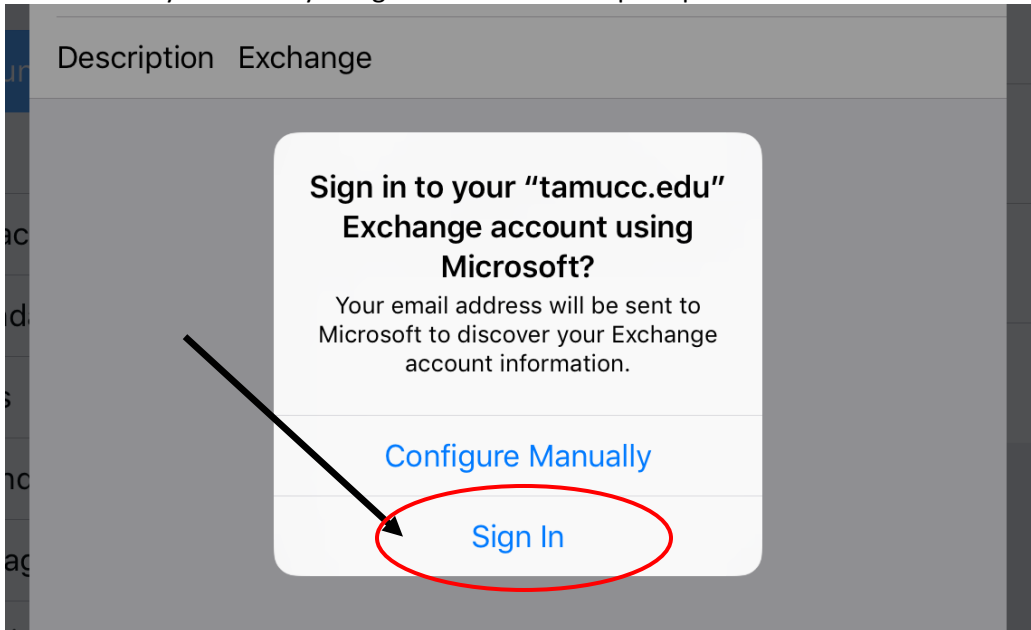

1. Tap **Settings>Accounts & Passwords>Add Account>Exchange**.

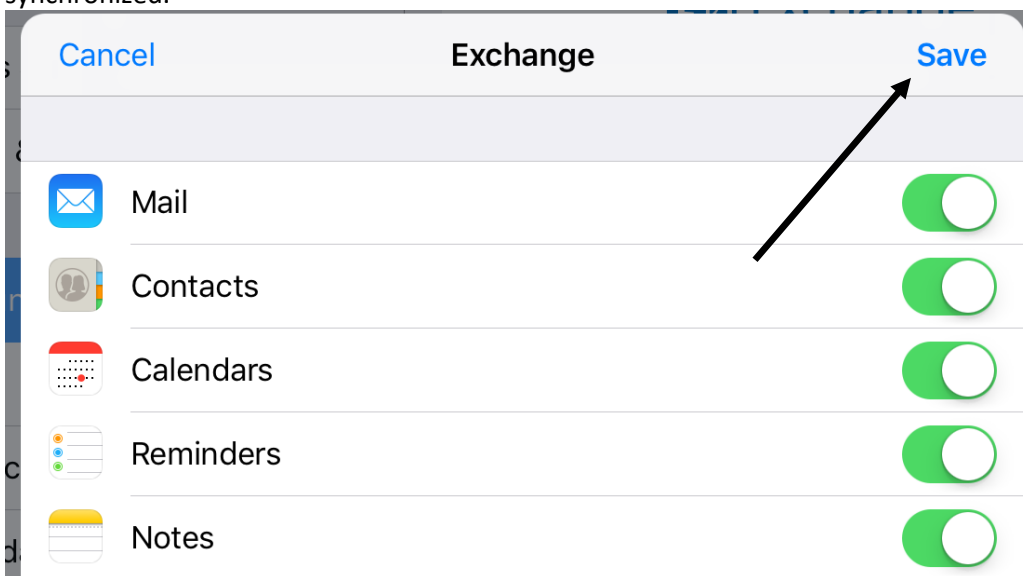

2. Type your **email address** and a **description**. Tap **Next** on the upper-right corner of the screen. Click **Sign In**.

3. Sign in using your full **email address** and **password** and then choose how you would like to authenticate your identity using **Duo**. Click **Allow** if prompted.

4. Choose the type of information you want to synchronize between your account and your device, and then touch **Save**. By default, Mail, Contacts, and Calendar information are synchronized.

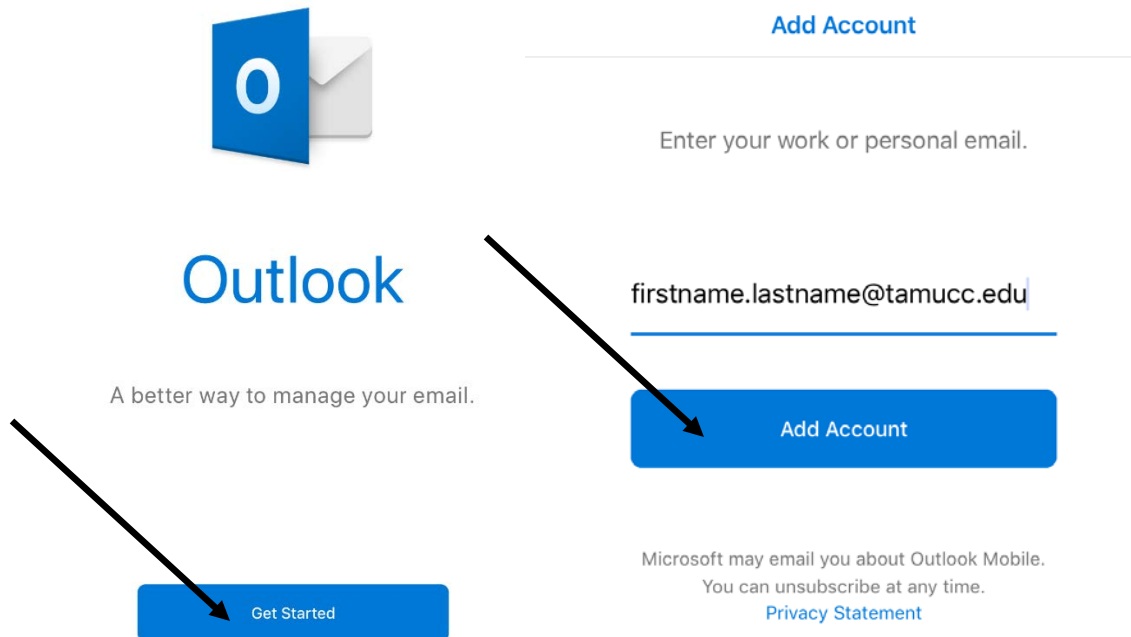

Clients using iOS 11.2 or earlier on iPhone and iPad may access their email on their mobile device by going to **outlook.tamucc.edu** in a web browser or by using the **Outlook** app, which can be downloaded from the app store.

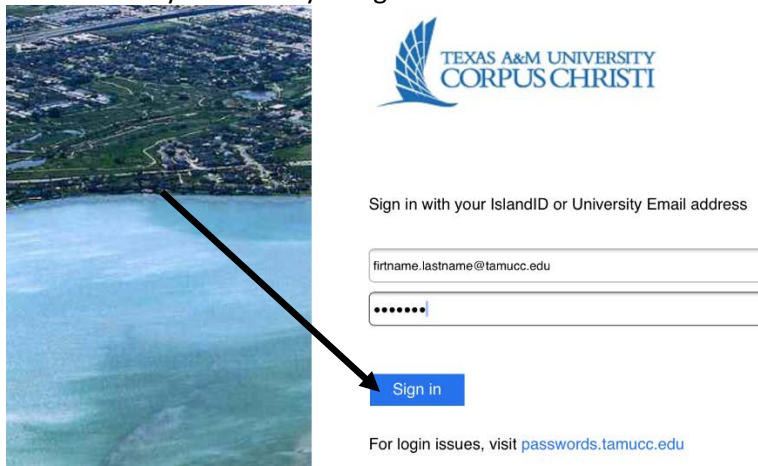

1. Once you have installed the **Outlook** app from the App store, open the application.

2. Click **Get Started**. Type your full email address and click **Go**.

3. Type your IslandID password, and then tap **Sign in**. Choose how you would like to authenticate your identity using **Duo**.

4. Once you have approved the **Duo** prompt your email will finish the setup process.
