Map the I:Drive – Mac OS X

If you are attempting to connect to the i:drive from on campus make sure that you are connected to either a hardwired internet connection or to the **Islander_Admin** wireless network. If you are attempting to connect to the i:drive from off campus make sure that you have successfully connected to VPN.
Follow these steps to connect to the i:drive on Mac OS X:

1. Click **Go** from the menu

    1. Left-click Here

2. Click **Connect to Server**

    2. Left-click Here

3. Type **smb://ad.tamucc.edu/Common/** in the space marked "Server Address."

    3. Enter smb://ad.tamucc.edu/Common/

    4. Left-click Here

4. Click **Connect** and you will then be prompted for your **Island ID** and **password**, make sure to change the radio button to **"Registered User."**
5. Once you have successfully connected to the server a new window will appear with your i:drive folder contents.
