Howard A. ‘Tony’ Wood Named Director of National Spill Control School at Texas A&M University-Corpus Christi

CORPUS CHRISTI, Texas – Howard A. “Tony” Wood has been named director of the National Spill Control School at Texas A&M University-Corpus Christi. He assumed his duties on Monday, May 24.

Wood comes to Texas A&M-Corpus Christi from SpecPro Inc. in San Antonio, Texas, where he supported corporate environmental projects at various military and government sites across the country. He graduated from Corpus Christi State University in 1979 with a degree in Marine Biology, and has more than 30 years experience in the environmental industry related to hazardous waste, environmental sustainability, and environmental business development, including environmental spill response on land and water. He has worked on or supervised 14 Superfund sites and has worked internationally in Mexico, Canada, Korea, Ecuador, the United Kingdom, Puerto Rico, Iraq and Afghanistan.

In addition to his graduate coursework in environmental policy and management from American Military University, Wood has taught courses with the National Spill Control School nationally and internationally, and has provided HAZWOPER, Haz-Mat, and spill response training to more than 2,500 students.

The National Spill Control School is a part of the College of Science and Technology at Texas A&M University-Corpus Christi. For more information, go to
