A Message from Dee Evans

I would like to thank Dean Aziz & Dr. Murphey for their visit to Camp Camp this summer and for their generous donation of a Hoyer lift that was delivered & put together this past weekend. It is ready to use for our campers!
Nurses are often responsible for managing multiple medications for each patient. Safe practices help nurses organize and administer medications accurately and efficiently, reducing the risk of errors. The Fundamental students have been working hard in the lab to learn best practices regarding safe medication administration.

Could you survive a month living in poverty?

It is difficult for those of us who have enough to truly understand the situations that families living in poverty experience every day: the decisions they must make, and the fears and frustrations they feel. For this reason, we are inviting you to walk a mile in the shoes of those facing poverty by participating in the Community Action Poverty Simulation (CAPS). The CAPS provides participants with the opportunity to assume the role of a low-income family member living on a limited budget.

In collaboration with the CONHS, you are invited to participate in a 4-hour simulation, each of which represents one week in which you must provide for your family and maintain your home.

Two Individual Sessions will be held:

Date: November 1, 2023
Session 1: 8:00 am - 12:00 pm  
Session 2: 1:00 pm - 5:00 pm
Location: Anchor Ballroom A, B, and C
