Last week marked another milestone for our college. Our NAACLS accreditation site visitors concluded a two-day visit to validate the self-study report that described all aspects of the Clinical Laboratory Science program.

The Program has been continuously accredited since its first accreditation in 1983, and after this visit, we are well on our way to maintain full accreditation.

While the official accreditation outcome will not be available until later, this preliminary report read out found us in full compliance.

This is an extraordinary testament to the work of the entire CLS community—staff, faculty, students, advisors, alumni, and friends.
Dr. Aziz and Dr. Murphey welcomed Oceans Behavioral Hospital of Corpus Christi CEO Michelle Lozano and Director of Nursing Lindsey Moore to the CONHS. The leaders met to continue their ongoing discussions on how to strengthen and expand the behavioral health workforce to best serve the residents of the Coastal Bend.

**Education Workshop**

Nursing educators from across the community attended the CONHS's Education Workshop "Best Practices for Simulated Clinical Education in Nursing." The event began with Dean Aziz's presentation "Assessment of Clinical Education: Begin with the End in Mind" and Dr. Leal's presentation "Debriefing: What, Why, Who, When, Where, and How?" Following the presentations, participants moved to the CONHS's Simulation and Clinical Learning Center (SCLC) where Dr. Leal, SCLC Manager Lisa Snell, and Supervisor Ashley Dominguez led an intensive two-hour hands-on simulation education training session. With great feedback from the participants, the CONHS looks forward to hosting our next Education Workshop in the Fall.
Congratulations to Rosario Garcia and Ashley Drillen on both being accepted into the DNP program at Bryan College Station!

Simulation Lab - ABSN

The ABSN students had the opportunity to respond to a simulated opioid overdose in the SCLC. The unfolding simulated activity highlighted the public health crisis and concluded with a mock code in the emergency department setting.
The Spring 2022 Nursing Cohort raised $300 through t-shirt and sweatshirt sales to support a local non-profit organization, The Purple Door! We also asked for donated items and took the organization 4 boxes worth of everyday essentials like hygiene products, diapers, clothes, etc.

The Total Wellness Fair project sponsored by the CONHS, Valero, and Leadership Corpus Christi - Class 51 was a huge hit. Topics discussed included:

- The importance of exercise
- The impact and mitigation of stress
- Benefits of good nutrition

In addition, a variety of health focused vendors and programs were on hand to provide information about their services to students.
