OB ORIENTATION

The spring semester is well underway, and it was a packed house in the SCLC.

OB orientation, led by Assistant Clinical Professor, Cathy Harrel, consisted of a demonstration of Mixed Reality headsets, hands-on practice of injection and catheterization skills, and assessments.

FUNDAMENTAL STUDENTS

First-semester BSN students gathered in the SCLC for their first week of skills lab. In their Fundamental course, the students were introduced to vital signs, the use of Proper Protective Equipment, and glucose monitoring. We are excited and eager to meet this new cohort of compassionate student nurses.

The CONHS CPR Team is excited to be hosting our first Family & Friends CPR event for the Islander Community. Our goal is to train 120 people in Adult Hands-Only CPR and AED on February 1. But, we are going to need help to pull this off! Anyone who is CPR trained may assist with this event - BLS Instructor Certification is not required!

If you would like to help with one of the classes, we ask that you arrive about 15-30 min early for instructions. You will then be assigned a couple of manikin stations to monitor and assist the participants during the class. The classes will last about 45 min.

If you have any questions about volunteering for this event, please contact lisa.snell@tamucc.edu.
