PREFIX

This code represents the data center publishing the the work and minting the DOI.

SUFFIX

Individual Item ID code. This code is unique for each item.

The prefix and the suffix combine to make the DOI. DOIs will resolve to the current location of the item.

TAMU-CC Repository

The Texas A&M University-Corpus Christi (TAMU-CC) repository is an open online site for storing and sharing digital content created or owned by the TAMU-CC community. Content includes published and unpublished research and scholarship as well as archival materials. The service is managed by the Mary and Jeff Bell Library in cooperation with the Texas Digital Library. For more information contact [Ed Warga](#) at the Bell Library.
